INDIVIDUAL PROJECT REPORT

SEMESTER II 2023/2024

Prepared for:

DR. RABIEI BIN MAMAT

Prepared by:

MUHAMMAD HARITH BIN ZULKIFLI (S67335)

1. Introduction

Be:Star is a comprehensive mobile app dedicated to enhancing football skills and nurturing the talents of players at every level. Whether you're a budding football enthusiast seeking to refine your technique or an aspiring professional aiming for stardom, Be:Star provides the resources, guidance, and community support you need to excel on the pitch.

2. Problem Statements

- Aspiring footballers face challenges accessing high-quality training resources, personalized guidance and supportive communities

Many individuals passionate about football struggle to find reliable sources for honing their skills. They may lack access to professional training facilities, experienced coaches, or like-minded peers who share their enthusiasm for the sport. As a result, they may feel isolated or uncertain about how to progress in their football journey.

- Users encounter barriers such as limited content diversity, inadequate performance tracking tools, and a lack of expert guidance

Many football training apps fail to cater to the diverse needs and preferences of users. They may offer a narrow range of training programs, drills, or challenges, making it challenging for users to find content that aligns with their goals and interests. Additionally, these apps may lack robust performance tracking tools, making it difficult for users to monitor their progress or identify areas for improvement. Furthermore, users may struggle to access expert guidance or coaching advice, hindering their ability to develop their skills effectively.

- There is a pressing need for a revolutionary mobile application that addresses these shortcomings and empowers aspiring footballers to unlock their full potential

Given the limitations of existing solutions, there is a clear demand for a more innovative and comprehensive football training app. Such an app should offer a wide range of features, including personalized training programs, performance tracking tools, expert coaching, and community engagement features, to meet the diverse needs of aspiring footballers.

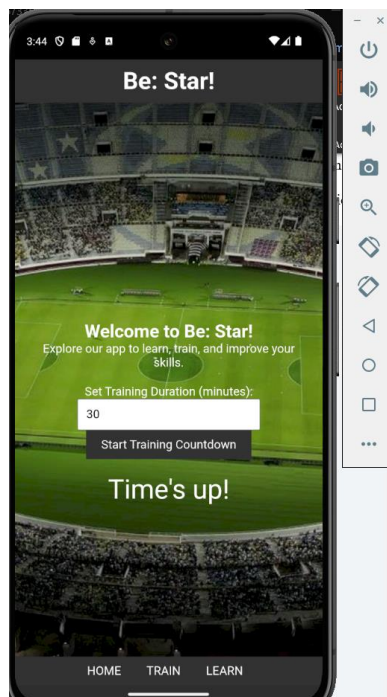

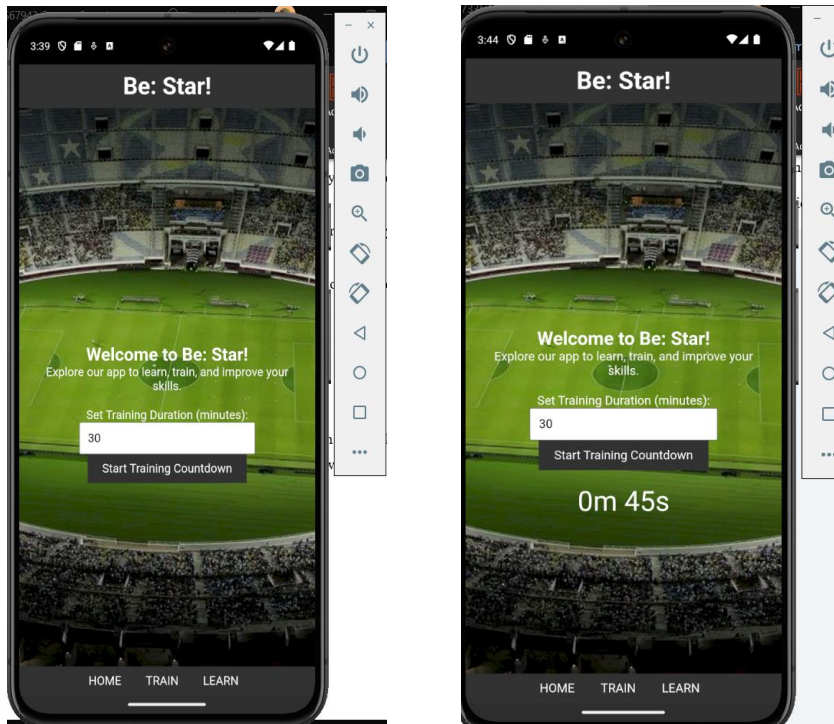

3. Objectives

- Provide users with a platform to improve their football skills through a comprehensive range of training programs, drills, and challenges tailored to their skill levels and positions.
- Offer users access to a wide range of educational resources, including tutorials, strategy breakdowns, and expert insights, to enhance their understanding of the game and empower them to make informed decisions on and off the field.
- Enable users to track their progress, set goals, and monitor their performance metrics, such as speed, accuracy, agility, and endurance, to identify areas for improvement and measure their development over time

4. App Explanation

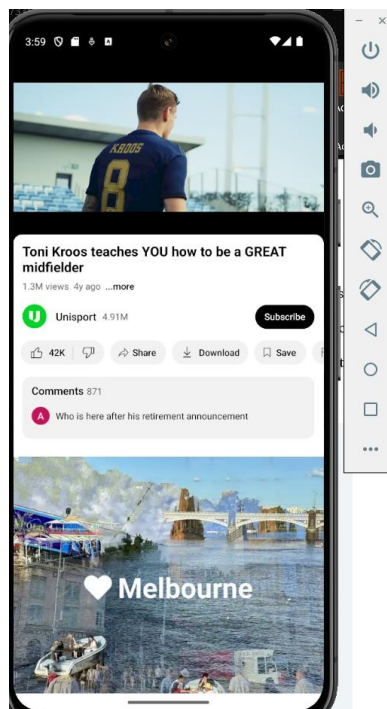

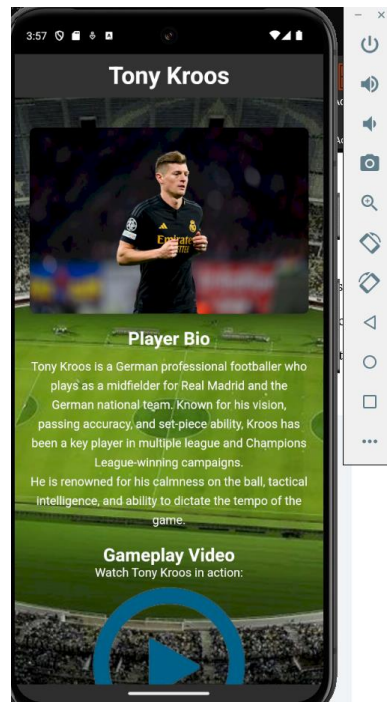

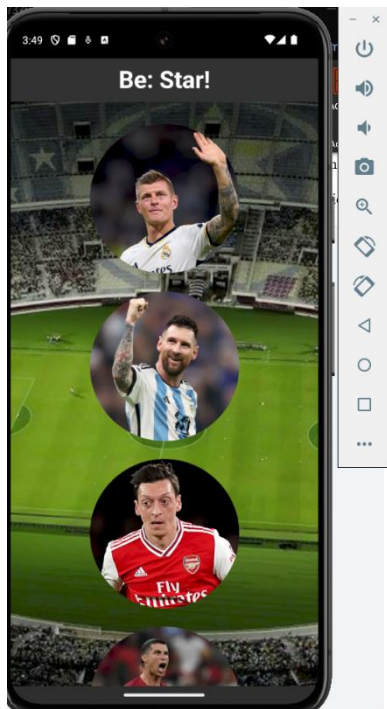

- Main Page

This main page shows training duration that you want to do, like you want to do a dribble that you have learnt for 30 minutes. You can set at the main page for 30 minutes and then you dribble until the time is up. This page also have home page, train page and learn page you can discover.

- Train Page

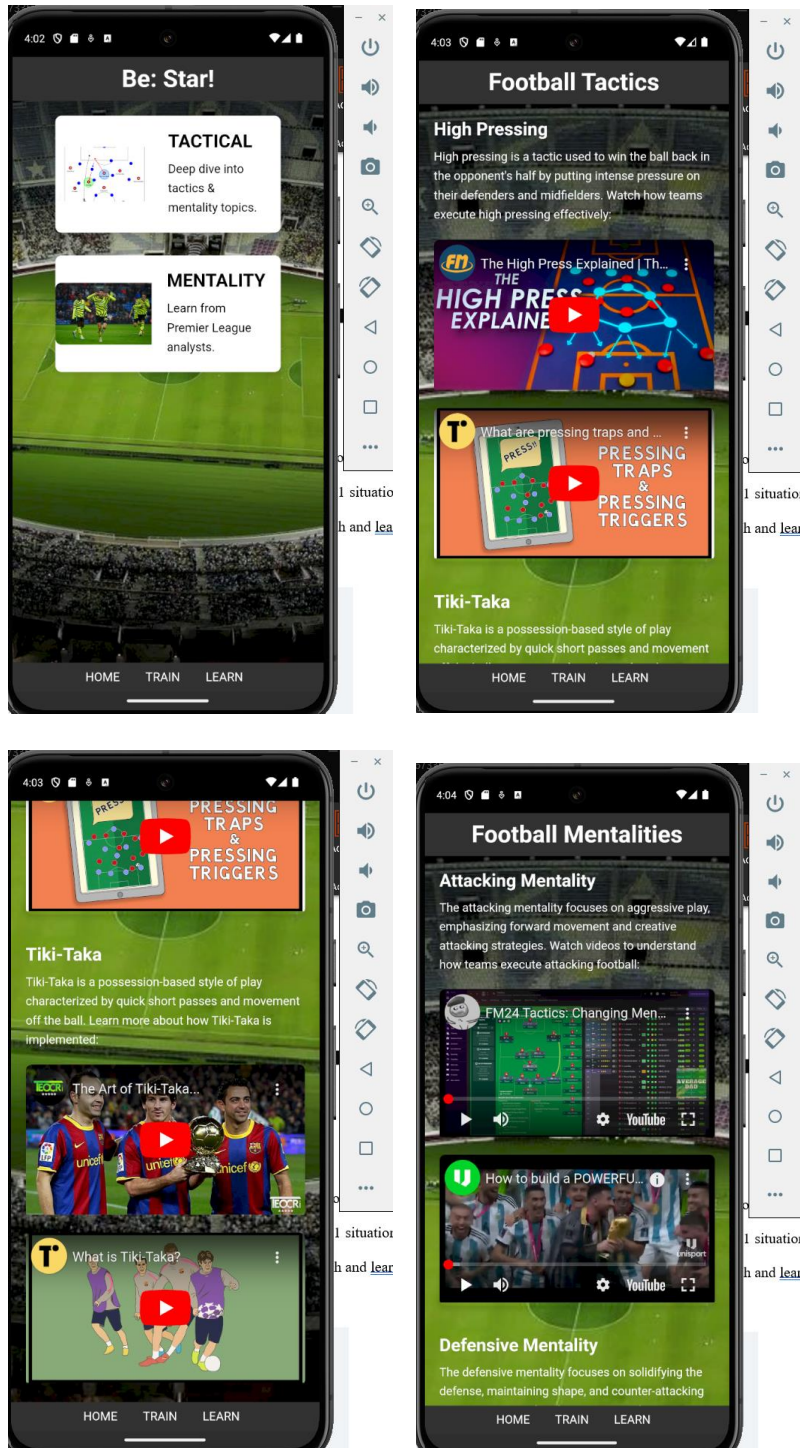

This page will show the user the best footballer in the world that they can follow to be a star of the football. One of the star that show in this apps is Tony Kroos, Lionel Messi, Mesut Ozil and Cristiano Ronaldo. You can click in this apps to see his profile and we have a video on how to become like them. You can watch that video easily as we have collab a good trainers to do the video for you. You can easily become one of the star in football coming soon if you learn of it.

- Learn Page

This Page will show the user of the tactical and mentality in the football. User can use whether they want to learn tactical first or mentality. You can learn on how to high pressing if click the tactical. If your team got beaten like 2-0 and want to take a ball fast and do a counter attack as fast could. High pressing is a best tactical to do that. You can also learn tiki-taka with your teammates in tactical as tiki-taka is one of the tactical that you can beat others teammate.

For the mentality we have attacking mentality and defensive mentality on how to handle your mental in a real match. You will know on how to handle your mentality when in football that's for sure.

5. Coding
